PUNE EXPO 2026

22nd to 24th
December 2026

Auto Cluster Premises,
Chinchwad, Pune - 19
MAHARASHTRA

15th
Edition

Exhibit > Engage > Elevate

Display of Capabilities of today's Innovation's which will shape needs of tomorrow

PUNE EXPO 2026 is more than an exhibition — It will be an experience that showcases significant advancements in engineering technology sector and digital technologies, process Industry, machinery, Machine tools. The 15th edition is ready to once again bring manufacturing world together to showcase the latest Innovation in industry, meet decision-makers, and tap into national & International market.

Our Previous edition was a success with **200+ exhibitors** & quality business visitors from **across India**. Exhibitors witnessed a dynamic environment where real business conversation happened, quality enquiries generated, and meaningful Industry connection built.

The leading Industrial Exhibition in Maharashtra, Pune Expo 2026 is the most sought-after event for the manufacturing industry. The exhibition will enable you to lead conversations and forge lasting alliances. It will represent diverse sectors such as auto-components, electrical, electronics, automation, robotics and defence. It will help you to connect national, International buyers through Buyer-seller meet, leading OEMs through Vendor development meet & tech fest to link with Industry & technology.

Why Pune Expo?

MCCIA has been organizing Pune Expo, a series of business exhibitions since 2002 with a view to provide a platform for brand building and for cross sectorial interaction. The main objective of the event is to provide a unique single platform for Exchange of Information and business discussions and focus on a cross sector and process oriented approach, to bring together all aspects of advanced manufacturing technology and defence equipment and technology upgradation in the service segments to showcase under one roof.

Pune based companies are very innovative and come out with many products, technologies and solutions. Many of the companies from Pune and other parts of India have demonstrated enough resilience and made their mark in domestic and International Markets.

The rapid growth of industry in Pune and nearby regions has significantly increased the demand for world-class B2B products and services. Recent geopolitical developments have also created new opportunities for India's manufacturing and service sectors.

In this context, MCCIA is organising Pune Expo 2026 - the 15th edition of Maharashtra's leading industrial business exhibition, showcasing the region's industrial prowess and appetite for new products, technologies and services.

Future of Manufacturing at Maharashtra's Premier B2B Exhibition

“Testimonials”

Ms. Arathi K. Parigi
Managing Director
Neuton Auto Pvt.Ltd

We are proud to showcase our electric bus models here. We have received great interest from industry folks, with amazing experts & enthusiasts around. Our superior ride product an electric bus made in India for the world. We are, looking forward to the next exhibitions and to taking part in them. We are also involved in vendor development discussions, and our team has been having lots of conversations with the industry about how we can contribute together.

Mr. Vinayak Renake
Director
Sansui Process Systems

Participating in the Pune Expo 2025 was a great experience. The quality and variety of visitors were genuinely impressive, Great opportunity to interact with many relevant and interested people. The innovation showcased, especially through initiatives like the vendor meet, made the event even more valuable for businesses. It was a well-organized platform that truly supports brands and businesses.

Mr. Abdul Khadar
CEO
Dats Labs India

It has been an incredible experience. First of all, I like the way the show is organized. It's fantastic way to manage the whole organization. Secondly the entire show is organized in such a way that it has a very nice balance of the stalls, of the events, of the facilities you have created and the way we have experienced the visitors and other delegates is fantastic.

Mr. Ishan Shahade
MD

SWID Renewable Limited

We are into industrial solar installations. We are participating in Pune Expo for the last 3 years. The response out of the expo is phenomenal. Overall, we have seen that around 30-40% of the business have been generated through the leads which we have got through the Expo and this is also a very good networking opportunity and I would like to appeal to all the industrial CXOs and units to come here to participate in Pune Expo. It is definitely worth doing it.

Mr. Sagar Paranjape
Marketing Engineer

Brushless Motors India Pvt. Ltd

This expo is bigger than Pune itself because people have come here from Solapur, Nashik, Nagpur, Mumbai, basically from everywhere. The range of products and services here is so diverse, whether you talk about AI, sustainability, motors, or energy saving, all kinds of industries have come together. That's why the footfall is great. The customers coming to our stall and to others as well are of such good quality that the conversations are really meaningful.

Mr. Ajay Lokhande
Managing Director

Aim MouldPlast Pvt. Ltd

This is our second time participating in the MCCIA Pune Expo and we are really happy to be part of it. Every time Pune Expo is emerged new version, doing better year by year. We feel that small businesses often can't afford separate overhead costs for marketing and other things, so expos like this bring us in front of some really good customers.
